- musical levels and time challenges
- colorful graphics
- diverse characters and types of levels
- fierce boss fights
- discover hidden passages, stamps and shiny diamonds
- local co-op mode
- beat special challenges

### About

Mini's Magic World is an action platformer with a diverse cast of characters and levels to explore. Fight bosses, find hidden treasures, follow the rhythm of music, chase or be chased. Follow the adventures of a young student of magic on a journey to the Tower of Magic to save the world and defeat an evil wizard.

You can play it with up to 3 friends in a co-op mode that works with gamepads and even on a single keyboard. Cooperate or fight for the best score.

Each level is carefully designed to provide you with fun and challenge. Some levels are simple, some complex, some horizontal and some vertical, some are time based, while others require following the rhythm of music, in some you fly on a magic carpet - you never get bored because each provides a unique experience.

The game currently features 7 music levels, each with it's own track. The gameplay in those levels is synchronized as long as you don't stay behind, so be quick and be prepared for a challenge.
